I am a Laravel Developer with over three years of experience, having worked at Neputer Tech, The Scholar Education, and on freelance projects. I specialize in Laravel, PHP, and backend development, with a focus on building efficient and scalable solutions like eCommerce platforms, educational portals, and service booking systems. My expertise lies in writing clean code, optimizing performance, and integrating APIs to deliver smooth, user-friendly applications

Professional Experience

Neputer Tech Pvt. Ltd.

03/2022 – present

Web Developer

Kathmandu, Nepal

- Developed and maintained custom Laravel websites for clients, implementing user authorization to secure access to features while ensuring functionality, performance, and alignment with requirements.
- Created RESTful APIs for a mobile app to enable user authentication and authorization, ensuring secure access to product browsing and order tracking features.
- Built a Laravel-based eCommerce platform with features like product management, payment integration, and secure checkout, including an admin panel with role-based authorization to streamline order processing, customer support ticketing, and marketing tasks, collaborating with cross-functional teams.

Web Developer (Freelance)

03/2022 – 09/2022

- Executed independent collaborations to enhance and support multiple websites and their associated social media channels, contributing to overall online presence and user engagement.
- Actively participated in client meetings and discussions to understand project goals, gather feedback, and incorporate client preferences into the website development process.
- Collaborated independently to enhance and support different websites and their social media.
- Efficiently deployed code using FileZilla, ensuring seamless and reliable implementation of website updates and features.

The Scholar Education Pvt. Ltd

09/2021 – 02/2022

Web Developer (Remote)

Sydney, NSW Australia

- Wrote backend code in Laravel, tailoring it to meet specific project requirements, and implemented the corresponding theme.
- Collaborated with the team to ensure the ongoing maintenance and development of websites.

Projects

Medhey Ecommerce

- Developed and managed the **API backend** and **admin panel** for the **Medhey eCommerce** mobile app, ensuring smooth functionality and efficient data handling.
- Built and optimized **APIs** for seamless communication between the mobile app and server.
- Designed the **admin panel** to manage orders, customer support, and inventory efficiently.
- Helped streamline operations for **200+ daily orders**, enhancing platform performance.
- Integrated features to import products from **Indian eCommerce platforms** like Amazon and Flipkart.

RM Agrotech Pvt. Ltd

Developed a website for RM Agrotech Pvt. Ltd., providing detailed information on agricultural products with a user-friendly design and an intuitive content management system (CMS).

Pastpapers

Established a website for The Scholar Education Pvt. Ltd focused on collecting high school examination papers in NSW, Australia, featuring a user-friendly design and a tailored Content Management System (CMS).

My Teachers

Developed a user-friendly website for Teacher Booking Site with an easy-to-update Content Management System (CMS).
